

WEIGHING EQUIPMENT FOR THE WORLD

Fairbanks Scales and International Road Dynamics:

An Unbeatable Weighing Team

Fairbanks Scales and International Road Dynamics (IRD) are pleased to announce an ITS Vehicle Weighing partnership aimed at modernizing Commercial Vehicle Operations. By combining Fairbanks' extensive static scales experience and IRD's Gateweigh Weigh-In-Motion (WIM) technology, our companies have created a reliable system that will provide an efficient vehicle weighing system that optimize vehicle loading while reducing waiting time to ensure vehicle compliance.

This combination of systems will be primarily aimed at freight terminals, container ports and warehouse operations where vehicle overloading, efficient accurate weighing and security enhancement are important factors. Using Gateweigh as a Slow Speed WIM Vehicle Load pre-screening system, only overweight vehicles will be directed to the Fairbanks static truck scale, cutting down line-ups and congestion, increasing vehicle flow.

Fairbanks, one of America's oldest scale manufacturing companies, was founded in 1830 upon the design of Thaddius Fairbanks' platform scale and since has become a world leader in the weighing industry. Fairbanks is a dominant force in the private industry providing the world's most reliable static scales. Fairbanks Scales is a US company based in Kansas City, MO. IRD is a highway traffic management technology company specializing in supplying products and systems to the global Intelligent Transportation Systems (ITS) industry. IRD is a North American company based in Saskatoon, Saskatchewan with sales and service offices throughout the United States and overseas. Private corporations, transportation agencies and highway authorities around the world use IRD's products and advanced systems to manage and protect their highway infrastructures

Fairbanks' prominence in the private commercial vehicle sector and IRD's innovative WIM technology ensure accurate, reliable Commercial Vehicle Weighing System, with superior customer service ensure a winning combination.
